2

Directions: Use pennies to model subtraction. 1. Three children are on the balance beam. One child went to another activity. How many children are left? 2. Eight children are playing kickball. Four children go home. How many children are left?

3

are left

Vocabulary Check Vocab

4 subtract

Directions: Use pennies to model subtraction. **3.** Five children are riding their bikes. Three children stopped riding. How many children are left riding bikes? **4.** There are four skateboards. One skateboard rolls away. Draw an X on one skateboard. Tell how many are left. Write the number.

Math at Home Have your child tell you a short subtraction story and use buttons or dry cereal to model the story.
