Use Objects to Subtract

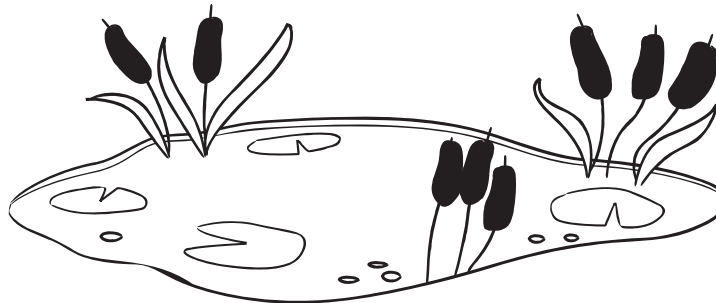

1

2

3

Place connecting cubes to show how many. Write the number to show how many are left.

- 1 There are 6 ducks. Place a cube for each duck. 3 swim away. Take off a cube for each duck that swims away. Count the cubes. How many ducks are left?
- 2 There are 4 frogs. Place a cube for each frog. 2 hop away. Take off a cube for each frog that hops away. Count the cubes. How many frogs are there now?
- 3 There are 7 birds above the pond. Place a cube for each bird. 4 fly away. Take off a cube for each bird that flies away. Count the cubes. How many birds are there now?
